कर्मफलहेतुर्भूर्मा ते संगोऽस्त्वकर्मणि ॥

Kalpsar Lam Pvt. Ltd., a private undertaking, it has risen to be known as one of the big players in the Indian decorative laminate industry. Kalpsar was established in 2015 by a group of wizards, who had an eye for premium decorative laminates. The wizards at the helm of the company are taking Kalpsar to new heights of innovation, production and customer satisfaction.

Kalpsar has developed its very own automated and advanced manufacturing facility, which is spread over an area of 75,000 sq. ft. The facility has been designed to maximize the production output, which takes its capacity to over 1,45,000 sheets per month. The manufacturing facility has stringent quality control systems in place that comply with the standards set by ISI for 100% phenolic laminates.

Kalpsar never stops striving to become better and eventually the best. Following that philosophy, we are rapidly increasing our presence in all corners of the country with an extensive dealer network. And not only domestically, but we are also branching out globally with plans for an export network, which will take our products to the global consumers.

For us, it's just the beginning, we have so much more to achieve with Kalpsar.
